

THIS CONFIGURATION
INCLUDES:

FLIP7 THREE FILTER KIT

SHALLOW

DIVE

DEEP

DUAL FLIP FRAME

BIG ANIMALS AND REEF SCENES

Choose this configuration when you want to focus on large scenes. Install the DIVE filter on the side position. Select either the SHALLOW or DEEP filter for your top position based on your dive profile. Only use the DEEP filter when you know you'll have excellent visibility and bright conditions below 50 feet. The double handle tray will give you excellent stability and the dual video lights will give you sharper and more colorful footage.

DOUBLE HANDLE TRAY
