

THIS CONFIGURATION
INCLUDES:

FLIP7 PRO PACKAGE

+10 CLOSE-UP LENS & ADAPTER

DOUBLE HANDLE TRAY

JOBY GORILLAPOD TRIPOD

MAGRO ADDICT

Capture the small and the smallest ocean critters with your GoPro camera. Following our recommended configuration for macro shooting, you'll be able to capture and light those basketball-sized subjects with the +10 Close Focus Lens, and the small wonders with the +15 MACROMATE MINI! In addition to our FLIP Filter System, we recommend the Backscatter Double Handle & Tray mounted on top of a Joby Gorillapod, Flex Arms, and Sola 2500 Video Lights run in "spot" mode to help light up your macro footage.
